

Safer, Stronger neighbourhoods

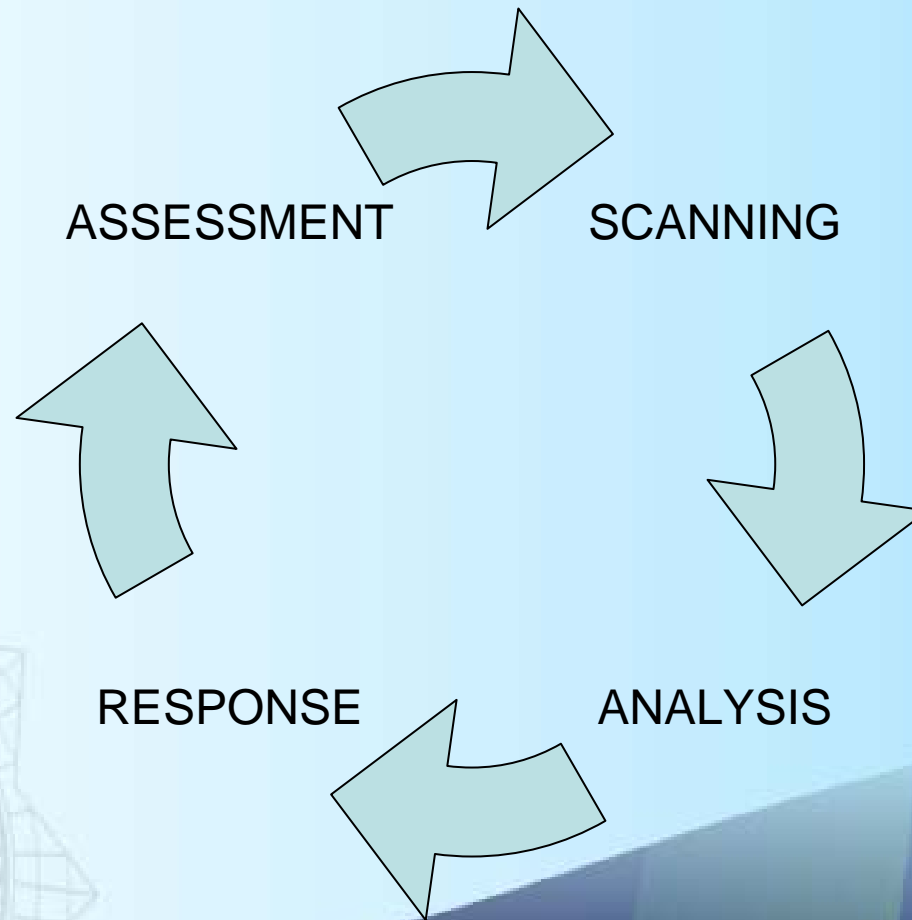

PROBLEM SOLVING

Kevin Thatcher

SARA Process

There are four stages you can use to help solve problems

Safer, Stronger neighbourhoods

SCANNING

- Describe the problem
- Where does it occur?
- When does it occur?
- When did the problem start? Is there an obvious cause?
- What are the effects on the Community?

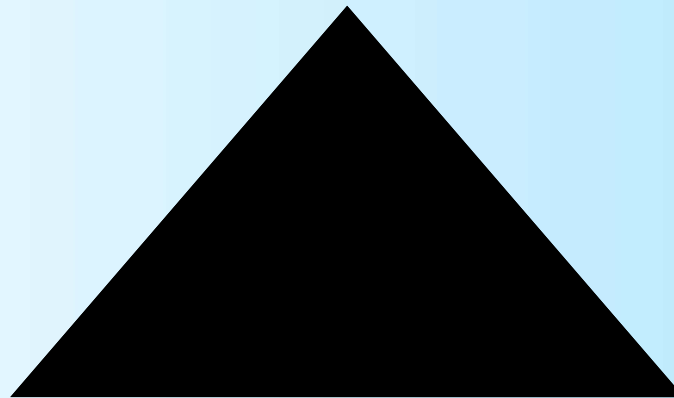

ANALYSIS

Problem Analysis Triangle (PAT)

Features of
Location

Features of
Offender

Features of
Victim

Safer, Stronger neighbourhoods

Response

- Based around victim/offender/location
- Education/Reduction/Enforcement
- Police/Partners/Community
- Example

ASSESSMENT

- **How has the problem been addressed?**
- **What action has been taken?**
- **What impact has this had on the Community?**
- **Has the problem been resolved?**
- **If not, why not? What further action is required?**
- **Other findings?**

Safer, Stronger neighbourhoods
